December 5, 2006 – Vancouver, BC – Quizam Media Corporation (“Quizam” or “the Company”) is pleased to announce St. Michael's Catholic School in Trail, BC has signed a deal with Quizam to enrich students learning and to develop a positive experience with homework. At St. Michaels, all students have the opportunity to enrich their learning through the use of computers with lab time at least once a week.

St. Michaels is unique in that it offers both French and Italian as a second language to students starting in kindergarten. Through a program of activities, songs, games, reading and writing students develop a vocabulary and appreciation for French and Italian cultures.

St. Michael's School began as a Catholic kindergarten, operated by the Sisters of St. Joseph of Peace in the hall of St. Anthony's Parish. On March 11, 1949, a planning committee met to explore the possibility of establishing a full-fledged school. The late Kevin Molloy has been recognized as the driving force behind the project. St. Michael's School opened in 1953, staffed by the Sisters of St. Joseph. At that time, the school had four classrooms and an enrolment of 105 pupils, in kindergarten to grade 4. In 2003 the School celebrated 50 years of Catholic education in the Trail area. Today the school enrolls students in kindergarten to grade eight. There are eight classrooms, a library, and a computer lab in the original facility. In April 1988 the newly constructed Catholic Education Center was opened. This extension includes a seminar room, a fully equipped kitchen, and a large gymnasium. The resource room and the Religious Education office are also located in the addition.

Russ Rossi, president of Quizam states, “I'm pleased that St. Michael's will use Quizam to help students with homework. Quizam is also a great tool to learn new languages. We currently have French quizzes for beginners to advanced and soon will have Spanish.”

About Quizam Media Corporation (www.quizam.com)

Quizam Media Corporation is currently launching sales of Quizam 2.0 Software, a compelling Computer-Based Assessment tool that utilizes time-tested quizzing methods to empower students to learn in an environment where their assessment is instantaneous

and their learning curve is accelerated. Students that use Quizam learn faster and score higher. Quizam's mission is to empower over a billion school-aged children and university students globally with relevant, effective and fun study aids.
